

RESIDENTIAL CONSTRUCTION COMPANY OF THE YEAR

Basement Home Ltd

Basement
Homes

Basement Homes have been transforming and developing homes for an ever-growing legion of clients across the Midlands for more than 15 years. Specialising in ICF (Insulated Concrete Formwork), the Solihull-based building specialists are dedicated to the benefits of this innovative construction technique. From excavation to final build, the company integrates all stages of the construction process, providing clients with a stress-free experience. Their expertise extends to basement builds, where they cleverly utilise space and showcase their prowess as industry experts. The commitment to excellence is further exemplified by their extensive portfolio, featuring home extensions that cater to homeowners' unique space requirements.

The judges were particularly impressed by the comprehensive palate of services on offer from Basement Homes, whose first class work consistently demonstrates their ability to create and manage stunning projects. From initial planning to the final finish, Basement Home Ltd ensures a 100% done-for-you project, offering a range of services, including interior finishes, decorations and even assistance with planning and design. With a belief in the future of ICF for house building, Basement Home Ltd combines high standards of work with competitive pricing. The company also offer a 10-year insurance-backed guarantee for below-ground damp proofing.
